

BUSINESS YOUR LOCAL & BUSINESS ROUND-UP

Fresh investment drives growth for family dental clinic

A fast-growing dental practice is gearing up for further acquisitions following a six-figure investment in its premises and state of the art equipment.

The family-owned business, Edgerton Dental Clinic, has built a strong reputation for professionalism and excellent service. It is a well-established clinic serving patients from Huddersfield and across Yorkshire.

The practice has seen significant investment in state-of-the-art facilities and the ongoing training of its dentists and dental support team. It has grown from three surgeries to 10 over the last 12 years.

Edgerton Dental Clinic is based in a fully refurbished listed Georgian building. A new car park will improve access for private patients. The surgery is also easily accessible for visitors on foot or arriving by vehicle or public transport.

The team at Edgerton Dental Clinic offer a full range of high-quality services including traditional family dentistry, children's dentistry, services for those patients with dental anxiety and a full range of cosmetic dentistry procedures. All of the dentists have NHS

contracts, and patients can express a preference about which dentist they would like to see, subject to availability.

Dr Asad Manzoor BDS said: "I am born and bred in Huddersfield, and after studying in Manchester I returned to my hometown to build a leading dental practice. We set out to provide the best services and care, and as a family business we are really proud of what we have achieved together.

"We continue to grow and provide both NHS and private dentistry. It is important that people have the choice between the two options and consistently high standards. It is a hugely rewarding job to help

people get the smile they've always wanted and look after people of all ages."

Chartered Accountants and advisory firm Hentons support Edgerton Dental Clinic. Hentons have a specialist healthcare team who provide expert accountancy and tax advice which has helped Edgerton Dental Clinic to grow and achieve its strategic objectives.

Chris Howitt, a partner at Hentons, said: "Edgerton Dental Clinic is a great family business that has seen fantastic growth in recent years. It has a reputation for delivering high standards of care and is committed to supporting NHS patients.

Ongoing investment in the people, premises and technology ensure that the team will continue to offer leading-edge care."

Hentons works with a wide range of businesses and high net worth individuals with strong sector expertise in property, landed estates, manufacturing, construction, healthcare, technology and not for profit organisations. It offers accounts, audit, business strategy and tax planning services with a partner-led approach for all its clients.

The family is continuing to look at growth opportunities to bring their commitment to care to more patients. It is expanding

its capacity to provide increasingly popular procedures such as dental implants and wider cosmetic procedures.

The availability of flexible payment options, such as Denplan, is increasing the popularity of private dentistry as people prioritise their oral health.

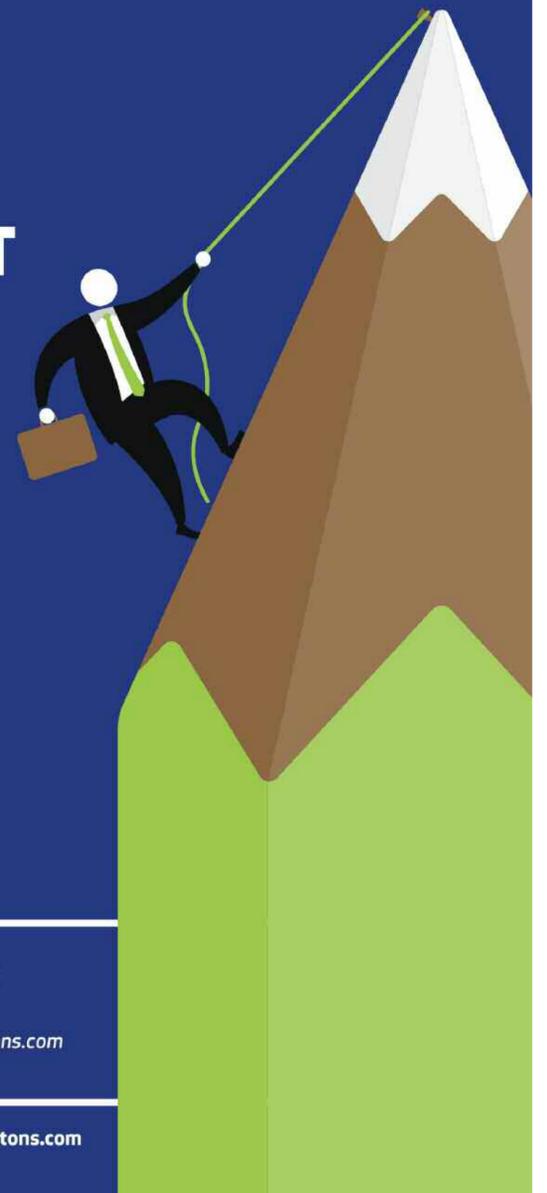

Dr Manzoor said: "Our patients can feel the difference when they visit us. Our 23 staff work closely as a team to ensure that every element of a visit is the best it can be, from booking an appointment to the dental care they receive. Hentons took the time to really understand our practice and how we operate. It has led to a great partnership that we believe will support our growth in the years to come."

The dental sector is showing many positive signs according to Nadeem Ahmed, the managing partner of Hentons: "A growing population is continuing to drive demand for dental services and the Edgerton Dental Clinic is a great example of an entrepreneurial family business expanding thanks to a focus on delivering great service and continuing to invest in both people and premises."
