

THE CHEMISTRY FOR SUCCESS

IMPORTANT CHANGES TO THE TAX RULES FOR MEDICAL COMPANIES

There will be important changes to the tax rules for your limited company. The new rules come into effect from April 2017 and NHS England should be contacting you within the next few weeks.

As part of the changes, your company can no longer be used to invoice services that are contracted for DIRECTLY with the NHS, or any other Government Department. Examples include:

- Appraisal Fees
- Lecturing Fees

You can still continue to use the company to invoice the Practice for sessions, as this is not a direct contract with the NHS, but technically a contract with a supplier to the NHS.

If you have any questions, please don't hesitate to contact me directly.
